Co-funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or CINEA. Neither the European Union nor the granting authority can be held responsible for them.

LIFE IP-BIODIVERSEA deliverable 31.12.2024, Baltic Sea Action Group

Action code E3

“Materials (such as videos) produced for school children and distributed through BSAG Baltic Sea school programme”

SUMMARY:

Learning materials (in Finnish) for school children can be found from BSAG’s website:

<https://www.bsag.fi/materiaalit/#/opetusmateriaali> Materials consist of six different PowerPoint presentations. The presentations offer information on the Baltic Sea in general, with additional presentations focused on the Baltic Sea’s species and biodiversity. These have been tailored to younger children (ages 6-11) and older children (ages 12-18). Materials are available to everyone and can be downloaded through the website.

As part of the Biodiversesea project, BSAG organizes an event for sailors and their families every summer in the Gullkrona island’s guest harbour. The island is located inside the Gullkrona marine protected area. BSAG has produced a video from each event, and these can also be utilized as learning materials for students. The videos showcase marine nature around the Gullkrona island and give practical tips for helping the Baltic Sea.
